1620 E/C Plange give me pros and cons:

1621 Plange E/C CPP plays big role (POU) need
 GPS/OPP play intricate - risk
 (short staffed / tired / stretched)
 within) to go tomorrow

1623 Plange E/C we don't (POU) have enough
 resources. info in the last 5 mins
 (lost resource that wasn't
 comfortable w this plan tonight/
 tomorrow morning).

1730		meeting: Marin, Patterson, Burnett Bryden, Samuel, Clement, Annagum. Drummond.	
	Patterson	What has changed since the Monday plan was developed?	
	Burnett	Delaying, after discussion w SME's day has gone on too long to launch @ 1600 Hrs and there is apprehension by partner agencies (not enough resources and rest period). Addressing resources here - portion Ford tec - Friday action would drive the success of this operation. more POU assesses coming tonight and some more around noon tomorrow Don't feel comfortable launching the plan when we don't have the resources needed for success of the operation. with no injuries to public and police.	

Pallerson

Where is the Unsell of militant group coming from - not what we're getting.

We don't believe members are taxed.

Burnett

Operations may be extended ie: getting rid of vch's - will tax resources for too long. Would be wise to wait for more resources.

Pallerson

We have drivers and tools for those vch's - just got info 5 mins ago.

Burnett

Come here to speak to all players in discussion was advised of resources.

Flanagan

External partners - was plan to be done @ 1600 - would have had rest now extended work hours. → has taxed members. and not enough down time, sustainability is a major factor. Not seen how plan or operation plan - other 1/c's of other agencies are not comfortable

Burnett

Doing it Friday morning - tomorrow will meet w everyone to make sure we are all on the same page on what is going on.

Compromise to have some sense of expectation of where we have coming ~~from~~ and when doesn't happen as planned they will relax and put us in a better position Friday.

Other provinces/countries are looking at us and we need to take into consideration of the ripple effect in mind.

Flanagan

From POU perspective - probability of success Friday will be greater.

Burnett

now off for tonight/tomorrow morning → go for Friday morning.

Patterson

Will get all staffing/Logistics to stand down for tonight.
